

\$100

Cash honorarium

IMPROVING TREATMENT TOGETHER (ITT) PROJECT

Are you interested in improving opioid use treatment services for youth and young adults in Alberta? If you are, we would like to work with you!

If you are a **family member (parent/sibling/spouse)** of youth or young adults age (12-29) who have experienced harms related to opioid use, you are invited to attend a **one-day workshop** in Grande Prairie. At the workshop, we will discuss the current state of opioid use treatment services for young people in your community and then discuss ideas for developing resources and designing solutions to improve treatment services.

The workshop includes lunch and a \$100 honorarium to acknowledge participation.

A partnership of:

Canadian Centre on Substance Use and Addiction

Alberta Health Services

For more details, contact Faria Khan at 403-369-1836 or faria.khan@ahs.ca

Opioids

a class of drugs that include the illegal drug heroin, synthetic opioids such as fentanyl, and pain relievers available legally by prescription, such as oxycodone (OxyContin®), hydrocodone (Vicodin®), codeine, and morphine.
